# Adobe ID Account –Computer or School Account Setup
Download Applications on the Windows Computers

Log on to https://www.adobe.com/ using **Google Chrome**, the **sign-in link** is located on the right top corner of the web page.	
You need to log on to a "**Computer or School Account**", and then **Adobe** will authorize your account after you **log in** using your Siena yourname@sienaheights.edu, followed by your password for your MySiena account. Next, you will receive an **e-mail from Adobe** with a code to log on to your account.	
After you have logged on to your **Adobe ID Personal account**, **tap o**n the **black squares,** found on the top right section of the menu, to get to the drop-down menu, next, click on **the View All button**, for the **Creative Cloud Apps**. Pending on your license; the **download button appears** when which app, or apps you have **permission to download**.	
Next, the next menu will display with the **Creative Cloud app**, download that app first, keep the **CC menu window open**, and **download** the rest of the software you would like installed on your **office Windows computer.** Remove any previous Adobe applications, before downloading and installing Adobe Acrobat DC and Creative Cloud apps.
