

Log on to your **Adobe Creative Cloud App**, On the **iMac computers on campus**, the **Adobe CC icon** is found on the **top right Two** menus to log in, the first is your **e-mail account**, and the second will be to tap on the **company or school account**, and type in your **MySiena password**. The last menu is the **Verify your Identity**, via **text, phone**, or **Microsoft Authenticator app**.

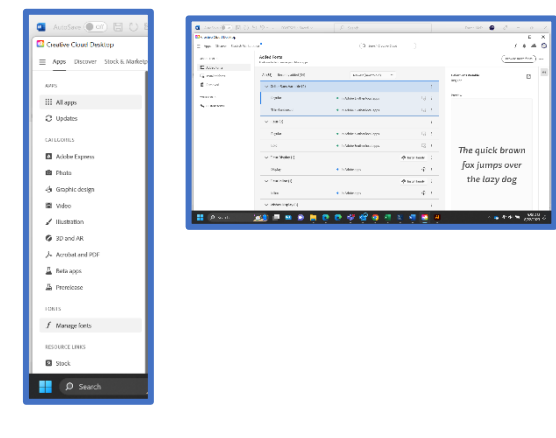

Font Menu Window
Tap on the **Search Adobe fonts window** on the top menu. Inside the **Search section**, now you can **tap on the Adobe Fonts** and other menu options for the **Fonts**.

Font Download Window
You will have the choice to download fonts as a **family set** or as a **single font**. After you tap on the **Adobe family button for the font** you want to **download**, a green menu appears, for confirmation. To access Adobe Creative Cloud App, locate the Adobe CC icon on the top right of iMac computers on campus.

Creative Cloud App
Go back to the **CC App**, tap on the **F manage fonts**, and you can view and manage fonts. Fonts are only working on the computer you downloaded on. **Fonts** can be used in **Microsoft Office applications**.

Adobe Illustrator App
Open **Adobe Illustrator**, after you select the font icon, on the left panel. From the top menu tap on **Type**, then tap on **font**, and scroll to the name of the font you have recently downloaded.

To recap your downloaded **Font selections** are in the **Adobe Manager menu**, open the menu by clicking on the **F**, and you will be able to view all the **activated fonts** you have recently downloaded. **Fonts** can migrate to Microsoft Word.
